

Your Unique Needs and Culture...

...Our Customized Solutions

"When medicine meets leadership everything changes...the culture, the care, the way we collaborate, and most importantly, the outcome changes."

A NEED FOR ACTION...

In a survey of 23 Baylor surgical residents, >75% identified a deficit in their knowledge of leadership theory and in specific traits (e.g. conflict resolution); over half reported at most average competence in helping others optimize performance, etc.

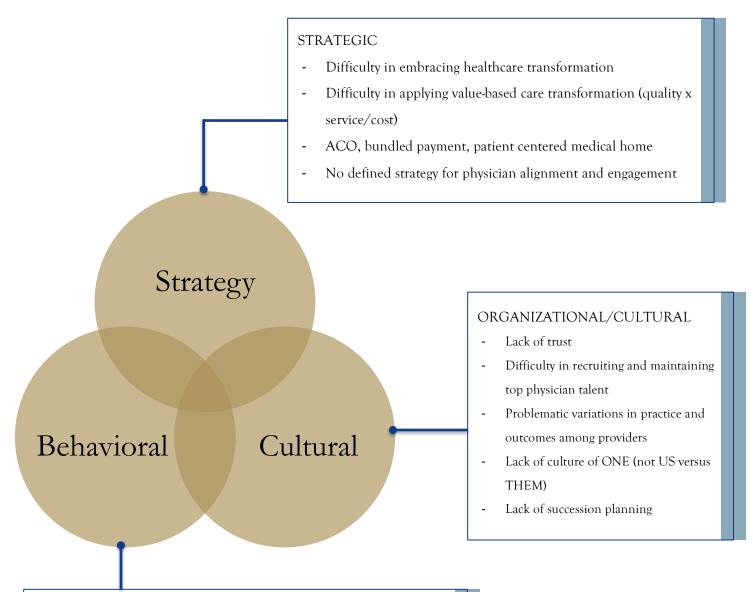

Stoller, I., 2009, IGIM

A growing body of research supports the assertion that effective clinical leadership lifts the performance of health care organizations. A recent study by McKinsey and the London School of Economics found that hospitals with the greatest clinician participation in management scored about 50% higher on important drivers of performance than hospitals with low levels of clinician leadership did.

Castro, J., Dorgan, S., Richardson, B., 2008, McKinsley Quarterly

The Challenge

At the Physician Leadership Institute, we find that most challenges facing healthcare institutions fall under 3 broad categories – *strategy, organizational/cultural, and skills/behavior*. Under each of these categories we see a common set of challenges that continually reoccur. It should come as no surprise that many of these challenges are directly related to *physician engagement* or rather, the lack of it. By naming these "symptoms," we can start the diagnostic process and work though empowering your institution with the right leadership tools and insight on how to overcome all obstacles.

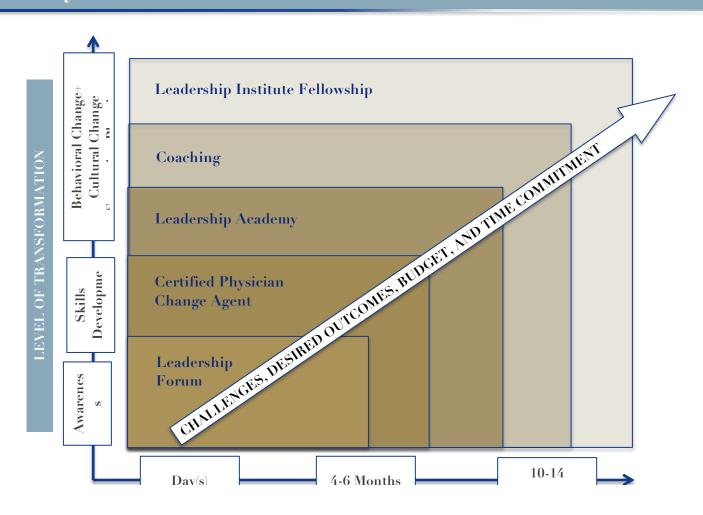

SKILLS/BEHAVIOR

- Physicians lacking leadership skills to be engaged in the transformation
- Physicians lack of adaptability and flexibility to change
- Not enough physician change agents
- Lack of collaboration
- Inefficient and unproductive medical staff meetings
- Retiring physician leaders

We Offer A Continuum of Leadership Services

We know each of our client-partners has a distinct mission and vision, varying budgets, time constraints, a unique culture, and differing desired outcomes. In addition, we believe every physician and leader has different strength and development areas. Therefore, there is no "off-the-self" solution that can meet the unique needs of every physician and healthcare organization. That is why PLI offers a continuum of custom programs that deliver the maximum return on investment for the organization as a whole and the individuals participating in our programs. Here are just a few of our program offerings:

Physician Leadership Institute & Fellowship

Delivered as a 12-15 month program, the Physician Leadership Institute (PLI) is our most comprehensive and transformative offering. Its goal is to transform the leadership capabilities within an organization at all levels. PLI aims to equip leaders with cutting edge leadership tools and practices, enable participants to engage in team collaboration, and provide them access to an elite team of leadership and facilitators.

| 360° Assessments | An assessment tool designed to provide participants feedback regarding their leadership strengths and areas of opportunity for personal and professional development. |
|---|---|
| Mentorship and Coaching | Matching participants with a network of accomplished physician and administrator mentors and business coaches who are well-respected members of the medical community. |
| Networking Opportunities with Other Leaders | Participants learn as much from each other as they learn from the faculty, thereby creating a strong support system and a network of colleagues and friends that will be sustained well beyond the PLI experience. |
| Simulation-Based, Active Learning | Active, adult learning models are utilized along with simulation-based and experiential learning techniques. Participants are placed into real-life scenarios and are directly responsible for the changes that occur as a result of their decision(s). |
| Personal Development Plans | Our Personal Strategy Map (PSM) is used to connect individual strengths and development opportunities with the feedback and data collected from a variety of sources, including the 360° Assessment. |
| Action Learning Projects | Working in cross-functional teams, participants have the opportunity to improve upon strategic, organization-wide issues, and drive tangible results for a return on investment. |

Fully customized programs to meet your organization's strategies and needs ...

- Topics aligned with the cohorts' top development areas through our 360° Comprehensive Assessment.
- Customization of the learning and coaching based on participants' individual needs and development plans.
- Sessions are customized to your organization's <u>real life case studies</u>.
- The program also includes a **Physician Leadership Fellowship regimen** similar to the Accreditation Council

LEAN in Healthcare; Streamlining processes to enhance efficiency and quality; Eliminating waste in processes and systems

Measured Outcomes of the Physician Leadership Institute

Since its inception in 2005, the Physician Leadership Institute has graduated thousands of physicians and healthcare leaders from across the nation. Tangible improvements have been observed in participants' ability to effectively lead by example, drive results, develop internal teams and collaboration, lead change and foster innovation, think strategically and make sound decisions, manage conflict, and communicate with and influence others.

Improved Skills and High Participant Satisfaction:

Following each session in the program, participants rate their skills and knowledge of the learning objectives before and after each session. On average, participants improve 50% or higher in all sessions' learning objectives. An average of 8.9 out of 10 is typically reported for the overall effectiveness of the institute. In most cases, 100% of participants said that they would recommend PLI to others, as well as suggested that the program be offered again as an ongoing organization leadership program.

Skills Improvement and Loyalty (Self-Assessment):

Upon completion of the program, participants have reported some of the following high impact improvement (% improvement in skills, before and after PLI).

- 133% improvement in the ability to lead others.
- 200% improvement in the ability to work in teams.
- 350% improvement in the ability to think strategically.

Top Strengths:

A T-test conducted on both pre- and post-360° Assessment group strength ratings indicates that improvements in top strength areas for all participants are statistically significant. Overall, the ratings show that the participants built on their strengths and acquired new ones, such as setting high performance standards to drive results and leading through personal excellence and example.

- 167% improvement in the ability to effectively communicate and influence.
- 325% improvement in the ability to deal with difficult issues and situations.
- 140% improvement in the ability to manage the practice.
- 125% improvement in the ability to impact practice volume/revenue.
- 150% improvement in the commitment to and active engagement in ensuring organization success.
- 250% improvement in loyalty to the organization.

Stephen K. Klasko, M.D., M.B.A is bridging the art and science of medicine and healthcare information technology with twenty-first century business and administrative changes through a unique background of academic and administrative medicine, entrepreneurial clinical practice, and business and leadership training. He is the former CEO of USF Health and Dean of the College of Medicine at the University of South Florida.

Margie L. West, M.Ed., M.A.
Senior Leadership
Development Facilitator
Center for Transformation
and Innovation

As a Senior Leadership

Development Facilitator with the Center for Transformation and Innovation, Margie West facilitates practical workshops in business communication, team and collaboration effectiveness, and leadership. Margie has 20 years of experience as a learning and performance consultant. She has served as an internal learning and organization development leader with Fidelity Investments, the University of South Florida, and Catalina Marketing Corporation, and has facilitated performance improvement initiatives for business, education, and healthcare

Innovation Institute

Fear of failure, lack of an innovative culture, lack of trust... whatever the challenge that is keeping your organization from reaching its innovation goals, PLI can help. We work with companies and entrepreneurs to bridge the gap between innovation strategy and execution, and accelerate the transformation of ideas into results.

- Innovation Institutes and Academies
- Innovation Workshops, Retreats, and Boot-camps
- Innovation Strategy Development

We take a multidisciplinary approach to innovation. Together with our other institutes, the Leadership Institute and the Strategy Institute, we employ proven methods to help transform the DNA of an organization and its culture of innovation.

Terrain- Based Strategy MappingTM

Based on the ancient wisdom and practices of the "Art of War", by Sun Tzu, CTI has created the Terrain-Based StrategyTM (TBS) mapping system that enables individuals, teams, and organizations to explore opportunities in strategy planning and execution.

Administered as a 2-day retreat or as a Multi-Session program

CTI's Terrain-Based Strategy Mapping covers a 5-step process to maximize the development and execution of your strategy:

Mission

Why We Exist

Vision

What We Want To Become

Values

What We Believe In

Market Differentiators

What Gives Us A Competitive Edge

Strategic Objectives

Priorities To Build And Strengthen Differentiators (measureable)

Key Performance Indicators

How We Identify If We Have Achieved Our Objectives

Strategic Initiatives

How We Get There

My Line of Sight

What I Need To Focus On
